ADDENDUM

Proposed Interchange for I-85 Business and NC 109
Thomasville, Davidson County
TIP No. R-2568. State Project No. 8.1600901.
Federal Aid Project No. STP-109(1).

Continuing advances in the planning process have resulted in a change in the scope of this project. In May of 1995 NCDOT decided to either upgrade the existing interchange at I-85 Business in Thomasville, or to build an interchange on a new location. This addendum has been prepared to address the expanded APE resulting from the addition of the proposed interchange.

On June 16, 1995 a field survey was conducted. Thirteen properties over fifty years of age were surveyed within the expanded APE. None of these properties were considered potentially eligible for the National Register. In a meeting on June 22, 1995 SHPO concurred with the determination of NCDOT that these thirteen properties were not eligible for the National Register and did not warrant further evaluation. A map of the APE of the interchange and photographs of the thirteen properties within the interchange APE are attached. This map only shows the changes made to the APE at the proposed interchange location. The APE for the rest of the project remains as outlined in the Historic Architectural Resources Report.

CONCURRENCE FORM
FOR
PROPERTIES NOT ELIGIBLE FOR THE NATIONAL REGISTER OF HISTORIC PLACES

Brief Project Description

PROPOSED INTERCHANGE FOR I-85 BUSINESS AND NC 109, THOMASVILLE

On JUNE 22, 1995, representatives of the

- North Carolina Department of Transportation (NCDOT)
- Federal Highway Administration (FHWA)
- North Carolina State Historic Preservation Office (SHPO)
- Other _____

reviewed the subject project at

- A scoping meeting
- Historic architectural resources photograph review session/consultation
- Other _____

All parties present agreed

- there are no properties over fifty years old within the project's area of potential effect.
- there are no properties less than fifty years old which are considered to meet Criterion Consideration G within the project's area of potential effect,
- there are properties over fifty years old (list attached) within the project's area of potential effect, but based on the historical information available and the photographs of each property, properties identified as Properties #1-13 are considered not eligible for the National Register and no further evaluation of them is necessary.
- there are no National Register-listed properties within the project's area of potential effect.
